

## TWCA RenWeb Access

RenWeb is an internet based system used for communication and school information including weekly newsletters, homework, etc. Below are the instructions to access RenWeb.

Go to [www.twca.net](http://www.twca.net)

Click on the “Parents” tab at the top of the page. Select RenWeb. You will then be directed to the “ParentsWeb” RenWeb Parent Log-in Page.

<b>District Code</b> twca-tx					
<b>Email Address</b> Enter the email address you have given to us					
<b>Password</b> <u>SKIP this the first time</u> because RenWeb is going to email a password to you. (Don't worry, you can change it later!)

#1 RenWeb will take you to a “Thank You” screen and let you know that they will be sending you an email with a password.

#2 Minimize the screen (push the  button in the very top right of the screen).

#3 Go to your email and wait for notification from RenWeb. Be sure to check your Junk Email as well. When you get it, re-open the homework pages by clicking on it on the very bottom tool bar. Put in your password and click the “Parent Log In Button” (NOT the “New Parent Log In Button”) and you're in!

You will get a “Welcome” Screen. This is where you can change your password. If you ever forget it, it is stored on the school’s server and may be sent to you.

Click on “Continue”

This screen will have several options on the left side. Announcements, Downloads and Newsletters can be found here. There is also a “Classrooms” option.

Clicking on the “Classrooms” button brings you to the student’s “Homework Summary”.

When you click on “Homework Summary”, you will be taken to a page that lists all of the homework that has been posted by all of your student’s teachers for the current week. You will have the option to look at “last week”, “this week”, “next week”, and “all term”.

These homework pages are a great tool, but they ARE NOT meant to replace the student’s agenda. A teacher not posting or a student not having access is not an excuse for incomplete homework.

Be sure to hit the “Log-off” button.
